LEGISLATION ADOPTED

H. 3879 Prohibition of Computer Assisted Remote Hunting - This Act prohibits computer assisted remote hunting. This Act applies to any person who is engaged in computer-assisted remote hunting if either the animal hunted, or any device, equipment, or software to remotely control the firearm are located in this State. No person is allowed to establish or operate computer-assisted remote hunting facilities in this State. A person who violates this Act is guilty of a misdemeanor and, upon conviction for a first offense must be fined not less than five thousand dollars or imprisoned for not more than one year, or both, and for a subsequent offense must be fined not less than ten thousand dollars or imprisoned for not more than five years, or both. Upon conviction for a first offense, a person who violates this Act must forfeit any South Carolina hunting or fishing license for ten years. If the person does not possess a South Carolina hunting or

fishing license, the person is ineligible to obtain a South Carolina hunting or fishing license for ten years. Upon conviction for a second offense, a person who violates this Act must permanently forfeit any South Carolina hunting or fishing license and is permanently ineligible to obtain a South Carolina hunting or fishing license.

H.4221 Prohibits the hunting of migratory waterfowl in Georgetown Co. in Murrell's Inlet Creek (MIC) within 100 yards of a residence or business - This act makes it to hunt migratory waterfowl in Georgetown County in Murrell's Inlet Creek within one hundred yards of a residence or business without written permission of the owner or occupant. As used in this section, Murrell's Inlet Creek includes the public waters in Georgetown County located north of Huntington Beach, west of the Atlantic Ocean, and south of Horry County between the shoreline of the Murrell's Inlet Community and Garden City Beach. A person who violates this section is guilty of a misdemeanor and, upon conviction, must be fined not more than two hundred dollars or imprisoned for not more than thirty days.

H.4296 Prohibits the commercial taking or possession of diamond-backed terrapins - This Act deletes the authority of the SCDNR to grant permits to harvest and market diamond-backed terrapins. It also provides that it is unlawful to take or possess diamond-backed terrapin for a commercial purpose and that no more than

two diamond-backed terrapins per person may be possessed for a noncommercial purpose. Nothing in this section prohibits the incidental catch of terrapin by persons engaged in a lawful fishery when the terrapin are returned immediately to the water. A person who violates this Act is guilty of a misdemeanor and, upon conviction, must be fined not less than one hundred dollars nor more than five hundred dollars or imprisoned for not more than thirty days. Each terrapin taken or possessed in violation of this section constitutes a separate offense.

Invasive Aquatic Plants and Animals

Placement or introduction of some aquatic plants and animals into waters of South Carolina is environmentally unsafe. Some non-native species can rapidly reproduce and harm our waterways and our native aquatic life.

Preventing the introduction and spread of non-native, or non-indigenous, species is the responsibility of all outdoor enthusiasts. Residents and visitors should be familiar with state and federal laws and regulations on possession, movement, and introduction of non-native plants and wildlife before introducing any living material into waters of South Carolina. An intentional or unintentional introduction may be a violation of law.

Other than for research under permit it is not lawful to possess, sell, or place into

any waters many water plants including hydrilla, water hyacinth, water lettuce, giant Salvinia, and any other plant on the state or Federal Noxious Weed list. Without a permit it is unlawful to introduce, import, possess, or transport for release any species of marine or freshwater fish or invertebrate not already found in the wild or not native to South Carolina. Exemptions are allowed for possession for exhibition purposes only by municipal zoos or parks, circuses, and public museums, scientific, or educational institutions.

The Department will not grant a permit unless it finds that the aquatic species was taken lawfully in the jurisdiction of origin and that the importation, release, or possession of the wildlife is not reasonably

expected to adversely impact the natural resources or wildlife populations of South Carolina.

The Department may issue special import permits to qualified persons for research and education for specific types of non-indigenous freshwater fish, otherwise they are prohibited for possession or sale. Examples are certain catfish, electric eel, walking catfish, piranha, stickleback, Mexican banded tetra, sea lamprey, and snakehead. Stocking and removal of non-reproducing white amur or grass carp hybrids are lawful, but only when approved by the Department. The importation of tropical fishes, reptiles, or amphibians for sale as pets generally does not require a permit; however, the importation or possession of a protected species is prohibited or allowed only under permit.

Because of the likelihood of shellfish disease introduction, it is unlawful to place oysters, clams, or mussels brought from other states into the saltwaters. Even open shells may have non-native animals attached or harbor diseases that will affect native shellfish. Shellfish growers may be permitted to import shellfish from safe waters.

Further information about nuisance aquatic plants and animals can be found on the Department's website at www.dnr.sc.gov/water/envaff/aquatic/index and by calling:

Where to Look for Aquatic Hitchhikers on Boats

Regular cleaning of your boat, motor, and trailer before and after using all South Carolina waters can greatly reduce the spread of aquatic nuisance species. It takes just a minute to protect our waterways.

Education Programs in South Carolina

The SCDNR plans and directs education programs for students, teachers and the general public. Several programs have received national and state awards and are designed to meet the needs of teachers in grades K-12, as well as other non-formal education groups. For information about these programs, write: SCDNR, Education Programs, PO Box 167, Columbia, SC 29202, or call: 803-734-3885; Carolina Coastal Discovery Marine Education Program, 843-953-9359; Land, Water, and Conservation Education Programs, 803-734-4602; or visit www.dnr.sc.gov

Boater Education

Boaters under age 16 are required by law to pass an approved boater education course before operating, a personal watercraft (jet ski) or a boat powered by 15 h.p. motor or larger unless accompanied by an adult 18 years of age or older.

South Carolina boaters can take a boating safety and education course four ways.

1. In a classroom — Share the learning experience with other boaters and a qualified instructor. Contact DNR to locate the next classroom course in your area.

2. On the internet — The complete course, including the test, can be viewed or purchased online at www.boat-ed.com or through a link on the SCDNR home page, www.dnr.sc.gov

3. By video — You and your family can take a boater education course in the convenience of your home by purchasing a informative video and instruction manual. To order by phone call 1-800-460-9698.

For more information on all boating courses call SCDNR at 1-800-277-4301 or visit our web site: www.dnr.sc.gov

If you are less than age 21 and plan to go boating in another state, check that state's operator requirements. The SC Basic Boating Course is approved and recognized by all states requiring courses. The boater education certificate is not a boating license.

Hunter Education

All residents and nonresidents born after June 30, 1979, must successfully complete a hunter education course that is approved by the Department of Natural Resources (DNR) before a hunting license can be obtained. The hunter education certificate is not a hunting license.

The DNR encourages all hunters in South Carolina to be knowledgeable about their sport and safety-conscious when in the field handling firearms. For this reason, the DNR offers a 10-hour Hunter Education Course which includes classroom instruction and hands-on experience in hunter safety and hunting techniques. In addition, students learn about hunting ethics,

hunter/landowner relations, and basic conservation and wildlife management principles. The course is available to schools, clubs and the general public. A Home Study Course is available by calling 1-800-277-4301 or visit our web site: www.dnr.sc.gov.

If you plan to hunt out of state, check with that state to find out if hunter education certification is required. The South Carolina hunter safety course is recognized by all states requiring certification.

Trapper Education

The Trapper Education Course includes discussions on furbearer biology, history of the fur trade, wildlife management principles, fur harvest regulations and ethical conduct. This is not a "how to trap" course, but qualified instructors with the SC Trappers Association will discuss and demonstrate responsible trapping techniques.

For information contact the Furbearer Project at 803-734-3609.

SC Reel Kids™

This program sets goals designed to be fun, educational and active for kids and youth up to age 16. SC Reel Kids work toward goals such as catching their first fish, learning about fish, and improving fish habitats. For their efforts, rewards and certificates are awarded in recognition of meeting program goals, providing kids with the incentive to complete either the Junior Master Angler or Youth Master Angler program. Once youth accomplish the Youth Master Angler status, they will also receive their first annual SCDNR fishing license free after their 16th birthday. For more information, contact visit www.screelkids.com.

Take One Make One™

An outdoor education and mentoring program aimed at developing South Carolina's youth and young adults, 12 to 27 years of age, through conservation education and adult mentoring, into lifetime participants in conservation, hunting, angling and shooting sports activities. Students are required to complete the SC hunter education safety course and are mentored by an experienced adult for a minimum of one year. There are no registration costs. Presentations, brochures and applications are available by calling 803-734-3995.

Camp Wildwood

Camp Wildwood is a fun filled week during which students can experience many aspects of their natural environment. It is a place to discover that we are part of nature and everything we do in some way affects the natural balance. At **Camp Wildwood**, you acquire the knowledge and appreciation needed for the protection and wise use of our natural resources.

Camp Wildwood is a place for learning self reliance, self discipline and independence in an outdoors setting. It is a place to build self confidence in relationships with adults and peers, and a place to learn how to cooperate within a group. It is also a place to learn about the diversity of our natural resources and how many career choices there are in the environmental field.

Camp Wildwood is for 9th through 12th grade students and is in session for one week in June. Contact your local Garden Club, Wildlife Federation or the Department of Natural Resources for more information or visit the Camp Wildwood web site at www.wildwoodfamily.com/

Becoming an Outdoors-Woman

The "BOW" program offers one- to three-day workshops that teach outdoor skills in a relaxed, non-intimidating atmosphere to women ages 18 years and older. More than 20 classes are offered, including: shotgun, rifle, firearms safety, deer, turkey, duck and small game hunting; freshwater, saltwater and fly fishing; birdwatching; canoeing; camping; backpacking; backyard habitat... and much more! For information on these workshops, hunts or other women's activities, contact SCDNR at 803-734-3885 or visit www.SCbow.com.

National Hunting & Fishing Day

Once again, SCDNR and the S.C. Wildlife Federation have planned an event that will offer "hands-on" outdoor learning opportunities for every age group. Its focus will be to introduce newcomers to the hunting and fishing traditions, as well as rekindle interest by existing hunters and anglers. South Carolina's National Hunting and Fishing Day celebration is free of charge and open to the public on the fourth Saturday in September from 9:00-4:00 at SCDNR's Cohen Campbell Fish Hatchery located at 1529 Fish Hatchery Road in West Columbia. For more information, contact SCDNR at (803) 734-4001.

Advice on Eating Fish Caught from SC Waters

The South Carolina Department of Health and Environmental Control (DHEC) and the South Carolina Department of Natural Resources (DNR) believe that fish are a healthy, low-fat source of protein. To make sure that the fish you catch are safe to eat, DHEC tests fish from lakes, rivers and streams throughout South Carolina. Past sampling has shown that some fish from selected areas contain mercury and polychlorinated biphenyls (PCBs).

To protect your health, DHEC issues fish consumption advisories in areas where contaminated fish have been found. These advisories provide information to help you decide which fish to keep and how much to eat. While DHEC has issued fish consumption advisories for several lakes and rivers in South Carolina, there are other fishing locations where there are no advisories. For more information on the advisories, call DHEC, toll free, at 1-888-849-7241 or go to DHEC's web page at www.scdhec.net/eqc/admin/html/fishadv.html

Point & Suspension System For Natural Resource Violations

South Carolina law has established suspension systems based upon the accumulation of points assessed for convictions of natural resource laws. The Game and Fish Point System addresses violations inland of the saltwater/freshwater dividing line and if suspended under this system, a person cannot hunt, fish, gather, trap, land, or pursue game, fish, crustaceans, or shellfish in the State (including coastal waters out to the three mile limit). The Coastal Fisheries Point System addresses violations within the coastal waters of the State. The point categories for assessments are recreational and commercial. Points are assessed according to the appropriate category. Upon accumulation of 18 or more points in the recreational or commercial categories, a persons privileges to fish, gather, land, attempt to take, or possess fish, shellfish, or crustaceans within the coastal waters for the purposes of the affected category, either recreational or commercial, will be suspended. Suspensions under the Coastal Fisheries Point System do not affect inland freshwater fishing privileges except for shad, herring, and sturgeon which are regulated by coastal laws inland of the saltwater/freshwater dividing line.

Each time a person is convicted of a violation listed in the point systems, the Department must assess the points against the person's record. Half of the points on record are reduced for each full year in which the person receives no points. The Department of Natural Resources must suspend the privileges of any person who has accumulated eighteen (18) or more points.

In addition to these point suspensions, South Carolina law also mandates many suspensions for convictions of specific violations of the law. These suspensions are called "statutory suspensions". See Table C for some specific examples of statutory suspensions.

Note:

- *A violation of natural resources law while under suspension may result in additional suspensions of one year to five years.*
- *The purchase or procurement of a license, permit, stamp, or tag allowing suspended privileges while under suspension is a fraudulent purchase and is a misdemeanor punishable by a fine of up to \$1,025.00 and an additional one year suspension of hunting and fishing privileges.*
- *Failure to pay fines, restitutions, may result in suspension of privileges.*

Point System Suspensions and Appeals

Point system suspensions begin eleven (11) days after notice to the individual. A person who has been notified of a suspension may appeal the suspension to the Administrative Law Division. The request for appeals must be in writing and postmarked within ten (10) days of notification of the suspension. The appeal is limited to the validity of the points assessed and the identity of the violator. The Administrative Law Division cannot override a conviction and cannot allow a reduction of points unless the points are in error. To appeal a point suspension, write the S.C. Department of Natural Resources, Records and Intelligence Section, Law Enforcement Division, P.O. Box 167, Columbia, S.C., 29202 or call (803) 734-4002.

Table C: Statutory Suspensions

Many laws pertaining to natural resources and boating contain mandatory suspensions based upon convictions. These suspensions start upon conviction and run for specified times according to law. These suspensions will affect privileges and may affect licenses, permits, stamps, tags or registrations. Examples of violations for which suspensions are mandated include, but are not limited to:

- A. Impeding the right to hunt, fish, or trap 1 year;
- B. Conspiracy to violate natural resource laws. 1 year;
- C. Obtaining a license, permit, stamp, or tag by fraud 1 year;

- L. Unlawful road hunting 1 year;

- N. Unlawfully taking/possessing a wild turkey 1 year.

The above listed violations are examples of statutory suspensions. Many more statutory suspensions exist with time periods ranging from 10 days to ten years for certain violations and certain privileges.

Suspension Violations

Violation of suspension can add an additional three (3) to five (5) years to the original suspension date. In addition, some suspension violations require mandatory jail terms and may affect the right to own or be in possession of a firearm. Persons whose privileges are suspended are not eligible to hold license, permits, stamps, or tags. Purchase or procurement of licenses, permits, stamps, or tags while under suspension is a fraudulent purchase and is punishable by a fine up to \$1,025.00 and an additional one year suspension. To find out more information on suspensions, contact the S.C. Department of Natural Resources, Records and Intelligence Section, Law Enforcement Division, P.O. Nongame Freshwater Fishing

General Information

Nongame fishing permits and tags may be purchased from SCDNR only. Application may be obtained at www.scdnr.state.sc.us or by calling 803-734-3833.

Nongame fishing permits and tags are required, in addition to a valid South Carolina state fishing license (also applies to youth under 16), to use the following devices for recreational purposes: up to 3 trotlines with not more than 150 hooks, 3 to 50 set hooks, 3 to 50 jugs, up to 2 traps, 1 hoop net, 1 gill net no more than 200 yards in length or 5 gill nets, none of which exceed 30 yards in length, 1 skimbrow net, 1 seine, 1 minnow seine, or up to 2 eel pots.

This requirement applies to all freshwaters of the state inland of the saltwater-freshwater dividing lines, except privately-owned ponds.

Nongame fishing devices are not allowed in certain waters. The maximum number of devices allowed per area are shown in the Areas & Limits Section on page 22.

A tag must be attached to the device for which it was issued, and each permit and tag identification receipt must be in the licensee's possession while engaging in the activity.

Game fish must be immediately released if caught by net or trap or any other device used for catching nongame fish.

Commercial Fishing

A commercial freshwater fishing license must be in possession to take catfish by any method from public waters and sell or offer for sale such catfish, and/or fish with the following nongame fishing devices: 2 or more gill nets (or 5 gill nets not more than 30 ft. in length), 2 or more hoop nets, 3 or more traps, trotlines with a combined total of 151 hooks or more, or 3 or more eel pots.

All persons involved in commercial catfish fishing must have a commercial freshwater fishing license if they participate in any way in the actual fishing operation. This includes, but is not limited to, operating a boat, baiting hooks, removing fish from lines, traps or nets.

To qualify for a resident commercial freshwater fishing license, one must have been a resident of this state for the past 12 consecutive months and furnish proof to the SCDNR.

Shad/Herring

To take shad for recreational purposes by hook and line, cast net, or skim bow net in freshwaters a person must have a freshwater fishing license. For other allowances and restrictions, see page 26. Commercial fishing for shad and herring in freshwaters including for sale as bait and by use of gill nets is regulated under saltwater fisheries laws regardless of location within the state

(Sec. 50-5-1500 and 50-5-1550). Contact the Charleston License office at (803) 953-9309 for commercial and gill net information.

Saltwater Fishing

General Information

The following laws pertain mainly to noncommercial saltwater fishing, shrimping, crabbing and shellfishing for personal consumption.

Individuals (age 16 and older) harvesting oysters or clams or individuals fishing for marine finfish from privately owned boats must purchase an annual or temporary Saltwater Recreational Fisheries License.

Fishing piers and chartered vessels charging a fee for fishing and those offering fishing boats for rent must purchase a Marine Recreational Fisheries license annually. Applications for Pier and Charter Vessel Licenses are available from the DNR office in Charleston.

Any person engaged in selling any fish or fishery product, including bait, must first obtain a license from the Marine Resources Division. Regulations concerning commercial saltwater fishing are provided with commercial licenses and are available through Marine Resources Division at the address below.

For more information contact: SCDNR, Marine Resources Division, P.O. Box 12559, Charleston, SC 29422, (843) 953-9300.

For federal fishery limits and regulations, contact: South Atlantic Fishery Management Council, One Southpark Circle, Suite 306, Charleston, SC 29407, (843) 571-4366.

2006 Saltwater Recreational Fisheries License Report

Introduction

The South Carolina Recreational Fisheries License Program, since its inception in July 1992, has provided significant benefits to the state. Allocated funds continue to support programs, activities and resource management functions that are of great value to the protection, maintenance, enhancement and enjoyment of healthy and diverse marine recreational fisheries, associated fish stocks and marine habitats. The original Marine Recreational Fishing Stamp program was modified in 2002 to give South Carolina resident anglers and out-of-state anglers a variety of license options to choose from. The modification allowed for revenues to double, which provided additional support for activities important to state saltwater recreational anglers.

As of May 2006, approximately 1,283,941 individual saltwater stamps/licenses have been sold to marine recreational anglers over the course of the program's existence. Between 1992 and 2002, over 48,000 individual saltwater fishing stamps have been sold to collectors, and nearly 13,000 prints of the original artwork for these stamps have been sold to art collectors and conservationists. Since July 2005, 106,385 individual saltwater recreational licenses of all available types have been purchased, resulting in the generation of approximately \$1.14 million total, the vast majority of which by law must be used to benefit saltwater recreational fisheries for the state. The following are highlights of the activities, projects and programs carried out by the Marine Resources Division that received support from the Saltwater Recreational Fisheries License Program over this past fiscal year.

2005 Highlights

Artificial Reefs – Seventeen artificial reef construction projects were completed on permitted reef sites along the coast during the year, including the addition of 3 steel hulled boats, 2 steel barges, 500 concrete reef units, 3,000 pieces of concrete culvert pipe, and 50 steel shipping containers. In addition to these activities, over 100,000 tons of concrete rubble from the demolished Cooper River Bridges was placed on 10 different permitted reef sites. Routine monitoring and assessment of numerous reefs was conducted, and 11 new or missing reef buoys were deployed on estuarine and offshore reefs. A new SC artificial reef guide was developed which includes maps as well as coordinates to all the newest reef locations and materials. - \$307K

Marine Fish - SCDNR's Marine Gamefish Tagging Program continues to promote angler ethics and conservation with the support of license-generated funds. Last year, participants tagged 2,124 fish. Information was received from 269 recaptured fish. The top two species tagged and released were red drum and bluefish. A five-year project focused on documenting movement and dispersal patterns of the common dolphin off of South Carolina and along the East Coast was concluded this year. Over the course of this project, a total of 4,919 dolphin fish were tagged and released by 730 different anglers as well as SCDNR biologists. A total of 116 tag recoveries have been reported to date, with movement of individual fish documented from the Florida Straights to Rhode Island, and even into the eastern Atlantic Ocean as far away as the Azores. Another important component in SCDNR's effort to maintain high quality fishing opportunities is our effort to monitor and stock recreationally important species. Staff are assigned to collect size, age and reproductive information from a variety of species. Information is collected using gear designed to catch and record data in a standardized, repeatable fashion using long-lines to catch large adult red drum offshore, trammel nets to catch the smaller juvenile red and black drum,

flounder, sheepshead and seatrout inshore, and electro-shocking in estuarine waters farther upstream. SCDNR fisheries biologists also visit fishing tournaments and manage fish drop-off freezers in several locations where participating anglers can donate specimens for scientific study. Over the past year, staff visited 6 fishing tournaments and obtained useful biological information on 558 fish. Recreational anglers donated 192 additional fish in the freezer program and returned tags from 386 fish tagged by DNR biologists. Another useful and popular program supported through saltwater recreational fisheries license funds is SCDNR's red drum stocking research program. Time and patience are necessary for managing a healthy brood stock and conditioning them to spawn on cue. Larvae that are produced must then be carefully maintained in ponds or tanks, marked with a chemical agent, so they can later be identified as hatchery-raised fish, and then transported to the stocking area. During fall 2005, over 2.2 million red drum were released as part of a license funded activity. Specifically, 767,000 fish were released in the Colleton River, 616,000 fish were released in the North Edisto River and 854,000 fish were released in Winyah Bay. Mean sizes of fish released this year were much larger than those produced and released the previous year. It is expected that these larger fish will exhibit a higher survival rate than those previously stocked. New ways to distinguish between wild and stocked fish are being investigated, using cutting edge genetic techniques, which are beginning to show promise. In addition, a new effort to monitor populations of various species of coastal sharks was continued this year. - \$617K

Oysters - Over 46,620 bushels of shell were planted on 5 public grounds during 2005. Seventeen shell recycling sites, located throughout the coastal zone, continue to serve as collection points for donated shell, allowing the public to participate in oyster reef restoration and enhancement in recreational harvesting areas. SCDNR biologists are also testing new and better ways to enhance and restore local shellfish beds. Researchers are testing different ways to place shell on banks, covering some of the shell with different materials to reduce erosion and are using volunteers to build and monitor oyster reefs in different areas and under different conditions. Shellfish maps are available to the public free of charge by writing: Recreational Shellfish Maps, Shellfish Management Program, SCDNR, P.O. Box 12559, Charleston, SC 29442-2559 or by calling (843) 953-9854 or from the SCDNR Web site (www.dnr.sc.gov), click on "Marine", then "SC Public Shellfish Grounds." - \$376K

Education, Information, Outreach - The saltwater license website ([HTTP://SALTWATERFISHING.SC.GOV](http://SALTWATERFISHING.SC.GOV)) continues to provide the public with updated information on rules and regulations and saltwater fishing related news. The website averages about 30,000 hits per month. The Coastal Informational Distribution System (CIDS) continues to distribute educational publications to numerous tackle shops, fishing piers, and marinas along the coast. The Carolina Coastal Discovery (CCD) Marine Education Program continues to provide vessel and land based education activities operating out of the Marine Resources Division and SCDNR facilities in the Ashepoo-Combahee-Edisto (ACE) Basin, conducting nearly 60 education programs this year.

The CCD Program expanded education initiatives to include new marine animal dissections, a shorebird and waterfowl program, barrier island activities, catch and release angling programs, and a volunteer Monofilament Recycling Program. CCD Program information and application forms are now available online at www.dnr.sc.gov/ccd/ - \$178K

Hunting Rules & Regulations

Regulations in this section apply to both private and public lands statewide, unless otherwise specified.

Licenses and permits are required for hunting in South Carolina. Detailed information on the types of licenses and permits is located in the License Fees chapter of this book. All residents and nonresidents born after June 30, 1979, must successfully complete a hunter education course that is approved by the Department of Natural Resources (DNR) before a hunting license can be obtained.

Basic Information on Hunting:

Hunting is defined as trying to find, seek, obtain, pursue, or diligently search for game.

Game Zones & WMAs - South Carolina is divided into eleven game zones, as defined on the map below.

DNR sets and regulates the methods of harvest, bag limits and other requirements for hunting on Wildlife Management Areas (WMA) and for deer on private lands within game zones 1, 2 and 4. This area encompasses the upstate counties and includes the Mountain, Central and Western Piedmont hunt units.

The SC General Assembly establishes seasons, limits and methods for private land in all of the other game zones (3, 5, 6, 7, 8, 9, 10 and 11), which encompass the midlands and lower coastal counties. DNR regulates WMA lands within these counties and is responsible for law enforcement statewide.

Protected Game - The following species may be hunted **ONLY** during legally established seasons: bear, beaver, bobcat, deer, fox, mink, muskrat, opossum, otter, rabbit, raccoon, skunk, squirrel, weasel, waterfowl (goose, brant and duck), bobwhite quail, mourning dove, rails (marsh hen), coot, gallinule, ruffed grouse, crow, wild turkey, common snipe and woodcock.

Protected Nongame - The following species are protected and may not be hunted, molested, caught, transported, sold or possessed in any

manner: Alligators, birds of prey (eagles, hawks, osprey, owls, kites and vultures), nongame birds (except English sparrows, pigeons and starlings) and cougars (also known as pumas or mountain lions).

Falconers must possess a SCDNR permit.

The importation or sale of live wolves is prohibited in South Carolina, except for exhibition or scientific purposes upon the approval of SCDNR as provided by regulations. It is unlawful to import coyotes. The sale of coyotes is allowed only by permit from SCDNR (50-11-2630). A person may not have a live wolf in his possession without a SCDNR permit.

Alligators - It is unlawful to feed or entice an American alligator with food (50-11-750).

Alligators may only be taken and/or possessed under authority of a permit issued by SCDNR. Such permits are issued to participants in the Private Lands Alligator Management Program and under the Nuisance or Emergency Alligator Management Program. For information about the program and licensing requirements for taking, possession and sale of alligators or their products call (803) 734-3938.

Armadillos are not a protected species, however, a hunting license is required to hunt armadillos. Harvesting armadillos on WMA lands is limited to the current open season and weapons that are in effect for game species on the WMA.

Bear - It is unlawful to buy, sell, barter or exchange a bear or bear part. Transportation of a freshly killed bear or bear parts is unlawful except during bear season. Any person violating these offenses must be fined not more than \$2500 or imprisoned for not more than 2 years, or both, and hunting and fishing privileges must be suspended for 3 years. It is unlawful to feed bears or to hunt bears by the aid of bait (50-11-430, 50-11-440, 50-1-130).

All harvested bear must be reported to the SCDNR Clemson office or 864-654-1671, ext. 19 within 24 hours of harvest.

Participants in party dog hunts for bear must register before Sept. 15 with SCDNR. 25 members maximum per party. Write: SCDNR Bear Registration Permit, 153 Hopewell Rd., Pendleton, SC 29670.

Crows - A hunting license and free Migratory Bird (HIP) Permit are required to hunt crows. Crows are migratory birds and as such, are a federally protected species. The season is based on criteria established by the US Fish and Wildlife Service. The open season for crows on private lands in South Carolina is November 1 - March 1, there is no bag limit. During the open season on private lands crows may be taken with any firearm, bow and arrow, or by falconry.

Crow hunting on WMA lands is permitted. During the open season for small game hunting on WMA's, crows may only be hunted with weapons legal for small game. In Game Zone 1 no buckshot or rifles greater than .22 rimfire may be used except during deer and bear season (50-11-380). The use of electronic calls for crow hunting is permitted statewide on private land and WMA land. Crows damaging crops may be taken at any time without a federal permit (50 CFR 21.43).

Deer - Legal hunting time for deer is the time between one hour before official sunrise until one hour after official sunset (50-11-710).

It is unlawful to hunt, shoot or in any way kill deer from a motorboat, raft or any other water conveyance, or to molest deer while any part of the deer is in water.

Possessing any deer with the head detached while in transit from the point of kill is prohibited.

It is unlawful to hunt deer within 300 yards of a residence without permission of the owner and occupant, except that a landowner may hunt on his own land.

Archery, muzzleloaders and crossbows are allowed during gun hunts.

Antlerless Deer - An antlerless deer is defined as a deer with no antlers or an antlered deer with less than two inches of antler visible above the hairline (50-11-410).

Antlerless deer may not be possessed, hunted, shot or in any way killed except during special seasons or by special permit.

Antlerless Deer Harvest Programs are conducted statewide using either-sex days and 2 optional antlerless deer tag programs. The dates for either-sex days are shown in the hunting season section beginning on page 40.

Optional antlerless deer tag programs that hunters may choose to participate in include the **Individual Antlerless Deer Tag Program** and the **Antlerless Deer Quota Program (ADQP)**. Both programs are in effect statewide (50-11-390).

With the **Individual Antlerless Deer Tag Program** hunters can purchase either 2 or 4 tags per person, for \$5 each, which can be used on any day open to deer hunting with the following Game Zone restrictions: **Game Zone 1, 2, & 4** (Mountains and Central and Western Piedmont); tags are valid on public or private land starting Oct. 1. Utilization is limited to 2 tags per person only in **Game Zone 1**. **Game Zones 3 & 5-11** (Coastal Plain); tags are valid on private lands only starting Sept. 15. Tags are also valid on Sand Hills State Forest WMA in Chesterfield Co., North Dike WMA in Berkeley Co. and Longleaf Pine WMA in Lee Co. during any open season for deer starting Sept. 15. Tags do not have to be used on scheduled either sex

South Carolina Game Zones

days. Tags are not valid on properties enrolled in the Antlerless Deer Quota Program. Tags do not alter the daily or seasonal bag limits prescribed for Game Zones.

All persons purchasing tags in past years will be sent a renewal notice in August. New applicants may complete the application provided on page 51 or contact DNR Deer Project at 803-734-3886 to receive an application. The possession and use of these tags are limited to the purchaser.

Antlerless Deer Quota Program - Antlerless deer quotas are issued to qualifying land owners or lessees statewide who complete and submit an application along with a \$50 fee prior to July 18, each year. This program is generally better suited for landowners or lessees with larger acreages. Under the ADQP, a quota of tags is issued for a particular tract of land based on criteria including; density of the local deer population, condition of the local deer population, the size of the tract of land, and the recreational and agricultural objectives of the property owner.

Utilization of tags issued under the ADQP are subject to the following Game Zone restrictions. Game Zone 1 (mountains) tags are valid beginning Oct. 1. Game Zones 2 & 4 (central & western piedmont) and Game Zones 3 & 5-11 (coastal plain) beginning Sept. 15. Tags issued for a particular tract of land can only be used on that tract and they must be used on all antlerless deer that are harvested including antlerless deer harvested on either-sex days or by bow and arrow in Game Zones 1, 2, 4 & 5. Tags do not alter the daily or seasonal bag limits in Game Zones 1, 2, & 4. A harvest report must be completed by the applicant at the close of the season.

Feral Hogs and Coyotes - A hunting license is required to hunt feral hogs and coyotes. Coyotes may be hunted at night only as prescribed in the "Night Hunting" section on the following page. Hogs may not be hunted at night. There is no closed season or weapons restrictions for hunting feral hogs and coyotes on private lands statewide with the following exceptions; in Game Zone 1 during turkey season, hogs may only be taken with weapons legal for turkey. In Game Zone 1 it is unlawful to have in possession any firearm loaded with buckshot or larger shot or a rifle or ammunition greater than .22 rimfire except during deer and bear season (50-11-380). Feral hog and coyote hunting on WMA lands is permitted during any open season for game unless otherwise restricted. (See individual WMAs). On WMA lands, weapons used to hunt hogs and coyotes are limited to the weapon(s) that are allowed for the current open season on the WMA - see WMA seasons listing in the Game Zones sections beginning on page 40. No Sunday hunting on WMA lands. The use of electronic calls for feral hog and coyote hunting is permitted statewide on private and WMA lands. Dog hunting for feral hogs and coyotes is allowed year-round on private lands statewide. Deer may not be hunted with dogs on any WMA lands in Game Zones 1, 2, and 4. On WMA lands in Game Zones 1, 2 and 4 feral

hogs and coyotes may not be hunted with dogs during still gun hunts for deer. The possession or transport of live coyotes is allowed only by permit from SCDNR. No hogs may be taken live from any WMA in the state. It is unlawful to release or transport for the purpose of release, hogs for hunting purposes or in an attempt to establish or supplement a free roaming population (50-16-25).

Seasons, shooting hours, limits, and other special restrictions on migratory bird hunting are set by SCDNR in accordance with guidelines set by the U S Fish & Wildlife Service. Detailed information on the seasons and restrictions is provided in a separate Migratory Bird Brochure available in September.

Listed below are frequently requested rules for hunting migratory birds.

- Shotguns must be plugged so as to hold no more than 3 shells.
- Baiting is strictly prohibited.
- All hunting hours end at official sunset.
- The possession of lead shot is prohibited while waterfowl hunting.
- State and Federal Waterfowl stamps are

required for hunting ducks, geese, coots and gallinules. (See exceptions in License section on page 11)

Refer to the Migratory Bird Brochure for complete information on particular species and other restrictions.

Bird Dog Training - Bird dogs may be trained year-round on private land. Trainers must have a valid hunting license and may only use firearms with blank ammunition during the closed season for quail. A Bird Dog Trainer's License is available to persons engaged in the business of training bird dogs in return for money, goods or services. This license allows a trainer and two assistants to take pen-raised quail during the closed season while training dogs. Applicants must provide documentation of land areas to be used for training. For information, or to obtain a license, contact SCDNR Small Game Project at P.O. Box 167, Columbia, SC 29202 or call 803-734-3609.

Calls, recorded or electronically amplified - It is illegal to hunt, catch, take, kill or attempt to hunt, catch, take or kill any game bird or game animal with the aid of recorded calls or sounds or recorded or electronically amplified imitations of calls or sounds. Crows, coyotes or hogs are not game birds/animals and therefore can be hunted using electronic calls during daylight hours on private lands and WMA lands.

Crossbows - Crossbows, blow guns, dart guns or drugged arrows are prohibited on WMAs except as provided in WMA Regs, Weapons 3.2 on page 32. Crossbows are also legal for use statewide during any open season for deer (including archery only seasons), turkey, or bear by a person who suffers from an upper limb disability, provided the person while hunting, has in immediate possession a written statement certifying the disability. The statement, based on a physical examination by the certifying neurologist, orthopedist, or rheumatologist shall describe the disability and shall state the person is not capable of operating archery equipment or a bow and arrow. A copy of the statement must be provided to the department prior to hunting with a crossbow. Mail doctor's statements to: SCDNR, Wildlife & Freshwater Fisheries, P.O. Box 167, Columbia, SC 29202. (50-11-565)

Deer Processors - It is unlawful to keep any deer in cold storage or refrigerating plants unless the carcass is clearly marked with the hunter's name, address, and hunting license number (50-11-1700). This does not apply to storage at a private residence or to deer that have an Individual Antlerless Deer Tag Program tag attached to the hamstring since the hunters name, address, and tag number appears on the face of the tag. Deer processors should recognize that it is unlawful to sell deer meat to regain the processing fee for

deer that have not been picked-up by the owner (50-11-1910). The best practice is to take a deposit for the processing service when deer are left at the facility. If meat is not picked-up by the owner it can be given to another individual at no charge.

Field Trials - It is unlawful to conduct or participate in any field trial unless a permit for such trial has been obtained from SCDNR. Requests for field trial permits must be submitted to SCDNR at least 14 days prior to the proposed trial date. Requests shall include payment of \$5 per trial and the time and location of the proposed trial. A charter or document indicating that the trial is sanctioned by a nationally recognized field trial organization must accompany all requests for field trial permits. Loaded means a weapon within which any ammunition is contained. This does not include weapons contained in a closed compartment, closed vehicle trunk, or a vehicle traveling on a public road. A person convicted of unlawful road hunting forfeits hunting privileges for one year. See **WMA Regulations Page 32** for restrictions on WMA lands.

Negligent Hunting - It is unlawful to use a firearm or archery tackle while in preparation for, engaged in the act of, or returning from hunting in a criminally negligent manner. Criminal negligence is defined as the reckless disregard for the safety of others.

No buckshot or any shot larger than a No. 4, or any ammunition larger than 22 rimfire may be used. It is unlawful to use artificial lights at night, except vehicle headlights, while traveling in a normal manner on a public road or highway, while in possession of or with immediate access to both ammunition of a type prohibited for use at night and a firearm capable of firing the ammunition. (50-11-710). Rabbit hunting at night without weapons is lawful on private land.

Rabbit Boxes - It is unlawful for any person to trap rabbits, except that a landlord or tenant may use not more than five rabbit boxes on lands on which he has exclusive control during the gun season for rabbits. A hunting license is required to use rabbit boxes. Rabbit boxes are not permitted on WMA lands (50-11-160).

Sunday Hunting - Hunting is prohibited on Sundays on all WMA lands. On private lands statewide Sunday hunting for all game is legal except bear hunting which is prohibited on Sundays in Game Zone 1.

Transporting Firearms - There are no SCDNR restrictions on transporting firearms by licensed hunters and fishermen in a vehicle to and from the place of hunting and fishing except on WMA lands. For regulations on WMA lands see Weapons 3.4 on page 32.

The SCDNR offers a variety of WMA hunts through computerized drawings. Hunt fees range from \$10 to \$100 per hunter and must be submitted at the time of application. Applications for deer hunts are available in July, waterfowl and quail hunts in September, and youth/adult only turkey hunts in February. Deadlines to apply for draw hunts are generally mid-August (deer), mid-October for quail and waterfowl and early March for youth turkey hunts. Applications are available at SCDNR offices statewide (refer to directory on page 58) or write SCDNR Public Drawing Hunts, PO Box 167, Columbia, SC 29202 or visit our web site at <http://www.dnr.sc.gov>.

4.1 On WMA lands with designated check stations, all deer bagged must be checked at a check station. Deer bagged too late for reporting one day must be reported the following day. Unless otherwise specified by the department, only bucks (male deer) may be taken on all WMA lands. Male deer must have antlers visible two (2) inches above the hairline to be legally bagged on "bucks only" hunts. Male deer with visible antlers of less than two (2) inches above the hairline must be taken only on either-sex days or pursuant to permits issued by the department. A point is any projection at least one inch long and longer than wide at some location at least one inch from the tip of the projection. Antler spread is the greatest outside measurement (main beam or points) on a plane perpendicular to the skull. On WMA lands, man drives for deer are permitted between 10:

00 a.m. and 2:00 p.m. only, except that no man drives may be conducted on days designated by the department for taking deer of either sex. On WMA lands, drivers participating in man drives are prohibited from carrying or using weapons. On WMA lands, in Game Zones 1, 2 and 4, man drives will be permitted on the last four (4) scheduled either-sex days. A man drive is defined as an organized hunting technique involving two (2) or more individuals whereby an attempt is made to drive game animals from cover or habitat for the purpose of shooting, killing, or moving such animals toward other hunters.

4.2 Deer either-sex days for gun hunts are as follows (*See Game Zone sections beginning on page 40 for specific dates*):

- Game Zone 1: The first two sets of Fridays and Saturdays in November.
- Game Zones 2 - 11: (except Dillon, Horry and Marlboro counties) Saturday after October 3; every Friday and/or Saturday from October 11 to Thanksgiving day inclusive; Saturdays in December beginning 23 days after Thanksgiving day; and the last day of the open season.
- Dillon, Horry and Marlboro counties: Saturday after October 3; beginning October 11, the next 2 Fridays and Saturdays, inclusive, and the Friday and Saturday before Thanksgiving.

DOGS

5.1 On all WMA lands, dogs may be used for small game hunting unless otherwise specified.

5.2 On all WMA lands in Game Zones 1, 2 and 4, dogs may not be used for rabbit hunting during still gun hunts for deer. Dogs may be used from the close of the gun season for deer until the close of the rabbit season. Dogs may be trained for rabbit hunting from September 1 through September 30 (no guns).

5.3 On WMA lands, dogs may be used for hunting foxes, coyotes, raccoons, bobcats or opossums only between thirty (30) minutes after official sunset and 30 minutes before official sunrise.

5.4 The Department may permit deer hunting with dogs on WMA areas not located in Game Zones 1, 2, and 4. For the purposes of tracking a wounded deer, a hunter may use one dog which is kept on a leash.

5.5 Dogs may be used to hunt bear on WMA lands in Game Zone 1 during the special bear season.

VEHICLES

All terrain vehicles (ATV's) are not allowed on any heritage preserve.

6.1 On all WMA lands, no hunter may shoot from a vehicle except that paraplegics and single or double amputees of the legs may take game from any stationary motor driven land conveyance or trailer which is operated in compliance with these rules. For purposes of this regulation, paraplegic means an individual afflicted with paralysis in the lower half of the body with involvement of both legs, usually due to disease of or injury to the spinal cord.

6.2 On Department-owned WMA lands, motor driven land conveyances must be operated only on designated roads or trails. Designated roads and trails on Forest Service lands are those designated with either a name and/or numbered sign. On Forest Service land ATV's can be used only on designated ATV or motorcycle trails. Unless otherwise specified, roads or trails which are closed by barricades and/or signs, either permanently or temporarily, are off limits to motor-driven land conveyances. **Enhanced Hunter Access:** In Central and Western Piedmont only hunters will be allowed to use "All Terrain Vehicles" (ATVs) behind gates on certain designated roads closed to regular vehicular traffic from September 15, 2006 through March 1, 2007 ONLY. Roads for this use will be indicated by a stenciled statement "ATV hunting Access Permitted - Primary Roads Only" on the cross piece of the gate. Hunters using ATVs are cautioned not to leave designated primary roads and to avoid damage to trees and highly erodible areas. Hunters are also encouraged to help clean up litter along these roads.

6.3 It is unlawful to obstruct travel routes on Department-owned WMA lands.

VISIBLE COLOR CLOTHING

7.1 On all WMA lands during any gun and muzzleloader hunting seasons for deer, bear and hogs, all hunters must wear either a hat, coat, or vest of solid visible international orange, except hunters for dove, tur-

key and duck are exempt from this requirement while hunting for those species.

CAMPING

8.1 Camping is not permitted on DNR-owned WMA lands except in designated camp sites.

TRAPPING

9.1 Trapping on WMA lands is not permitted.

The use of in-line muzzleloaders and muzzleloaders utilizing a shotgun primer

The Heritage Trust Program: Heritage Preserves

The Heritage Trust Program

The Heritage Trust Program, part of the Habitat Protection Section of the SCDNR's Land, Water and Conservation Division, has acquired 69 Heritage Preserves encompassing 81,320 acres statewide. Heritage Preserves are managed by the Wildlife and Freshwater Fishing Division. Heritage Preserves protect significant natural and cultural resources. Public recreation is allowed on most preserves.

Twenty-four preserves (52,032 acres: 64% of the total acreage in the Heritage Trust Program) are also Wildlife Management Areas; these are open to public hunting in accordance with certain guidelines. Hunting is not allowed on the remaining preserves because of their small size, public safety factors or other legal, security, or biological factors.

Many roads are gated because Heritage Preserves contain unique, sensitive and rare elements vulnerable to vehicular and inordinate foot traffic. Bag limits and season lengths on Heritage Preserves are set with the aim of restoring or maintaining ecological integrity. Hunting, besides being an important cultural and recreational activity, is an important management tool on and near certain heritage preserves. The Heritage Trust Program has followed the lead of several other WMAs and prohibits fox squirrel hunting.

Cultural resources are strictly protected on heritage preserves. All projectile points (arrowheads) are protected. It is illegal to take or otherwise disturb any cultural resource or to possess a metal detector on any Heritage Preserve.

All snakes (including venomous snakes) and other reptiles and amphibians, as well as any non-game plant or animal, are protected on all Heritage Preserves. It is illegal to harm or harass any of these animals or disturb plants.

SCDNR Heritage Preserve Regulations

1. Visitation and use of Heritage Preserves are governed by regulations to promote public enjoyment of the land while preserving the features that make them special.
2. Heritage preserves are open for public use from one hour before sunrise to one hour after sunset unless otherwise posted or publicized.

Exceptions may occur for a special hunting season or field trip, in designated camping areas or for approved research or other projects.

3. Parking is allowed only for preserve visitors and only in designated areas (which may be parking lots and/or roadsides, depending on the preserve). Any other parking is prohibited. No vehicle shall block any road, regardless of whether the road is gated.
4. Collection, removal, possession of, or damaging or destroying any nongame animal, plant, rock, fossil, artifact, or ecofact, or the possession of a metal detector on a Heritage Preserve are all prohibited without written permission from the SCDNR.
5. No person shall abuse, damage, deface or destroy land, structures, signs or improvements on a Heritage Preserve.
6. There shall be no placement of trash, debris, rubbish, waste, or chemicals on preserves.
7. The consumption or display of any alcoholic beverage while operating or riding as a passenger in any vehicle and public drunkenness are not allowed. Alcoholic beverages may only be consumed by a person of lawful age only while camping at a designated campsite.
8. Camping and fires are not permitted unless areas have been designated or special written permission from SCDNR has been granted.
9. All terrain vehicles (ATVs) are prohibited on all Heritage Preserves.
10. Motorized vehicles are allowed only on designated roadways. Bicycles, horses and other conveyances are allowed only on designated trails of specified preserves.
11. Hunting is allowed only on designated preserves and only in accordance with Wildlife Management Area regulations.
12. Firearms are not allowed, except on heritage preserves designated as Wildlife Management Areas and then only in accordance with Wildlife Management Area regulations or as otherwise provided by state law. Target and other practice shooting are prohibited.
13. No plants, animals or other organisms may be introduced on the property.
14. All or part of a Heritage Preserve may be closed to the public to protect a species, or natural, cultural, historical or archaeological features.
15. Violators will be prosecuted.

Wildlife Management Areas

WMA Program

Through the cooperative effort of private landowners, the U.S. Forest Service and the SCDNR, Wildlife Management Areas (WMAs) are provided for the enjoyment of all wildlife enthusiasts. Funds generated from the sale of WMA permits enables DNR to lease approximately 1.2 million acres of land for wildlife conservation and management.

Heritage Preserves are properties acquired by SCDNR for the primary purpose of protecting habitat for rare and endangered species. Some Heritage Preserves offer game hunting opportunities, and, therefore, are included in the WMA Program.

All persons using WMA lands are reminded that only U.S. Forest Service lands and those areas marked by WMA signs are open to the

public. Lands not posted with these signs are the property of private individuals, and landowner permission must be obtained.

General locations of the areas described below are shown on the map on pages 38 and 39. For detailed maps showing these and other WMA lands write WMA MAPS, SCDNR, P.O. Box 167, Columbia, SC, 29202 or call 803-734-3886.

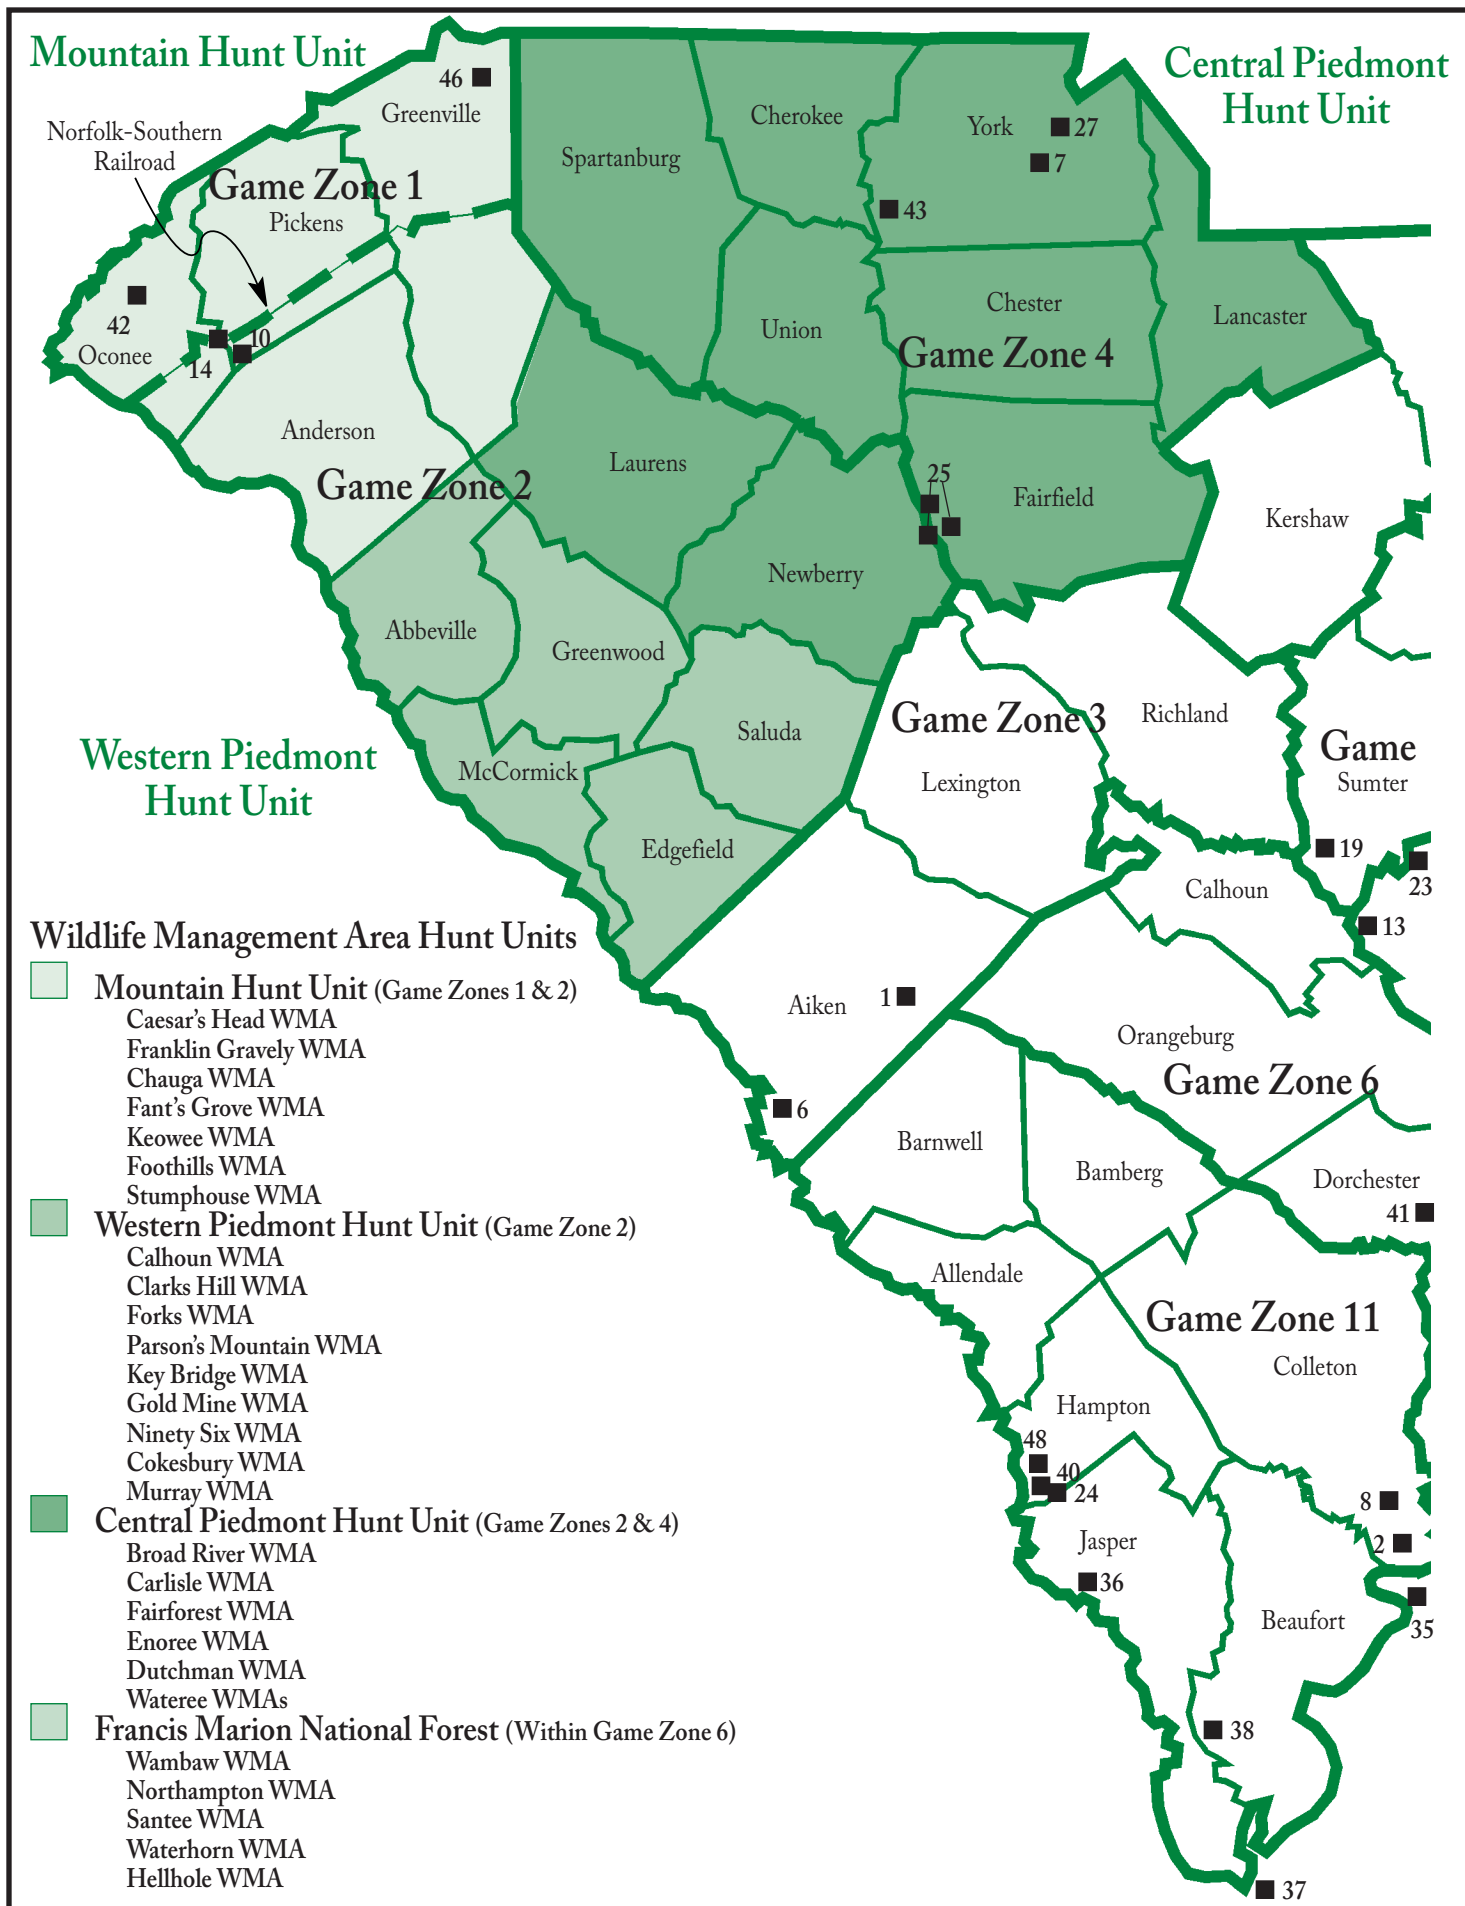

Wildlife Management Area Properties

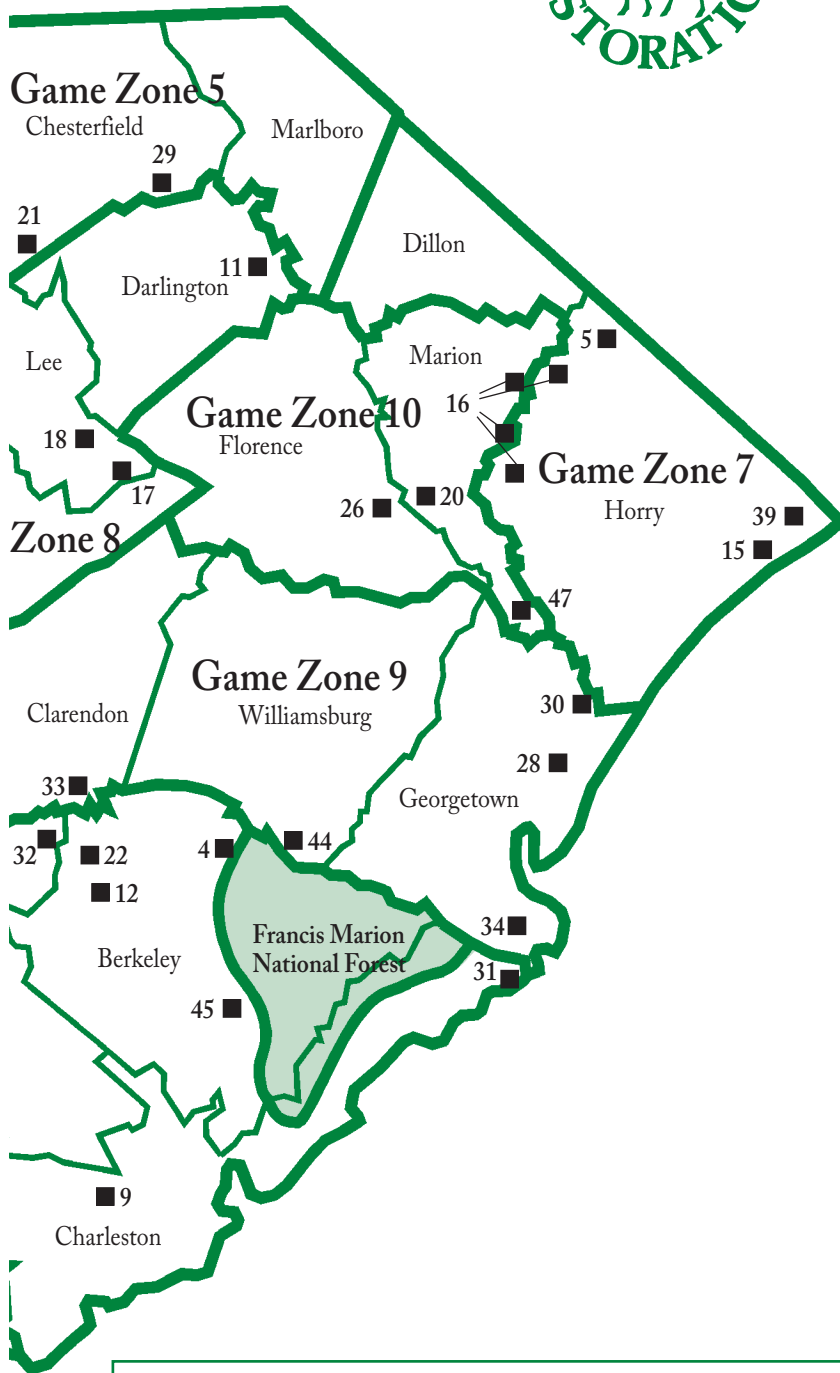

WMA properties should be marked with these yellow and black signs.

Open dates for each season are listed in the Hunt Seasons section beginning on page 40 of this book. Note: * indicates SCDNR Property.

Thanks to Landowners

Landowners providing their land for public hunting and recreation are due much appreciation from SCDNR and all outdoor enthusiasts. Without these lands, public hunting as provided in this state would be impossible.

Sportsmen seeing the yellow and black diamond-shaped signs designating WMA boundaries should remember they are hunting as guests of the landowner and be respectful of this privilege.
